

# Overwhelming Response for Proteus Workshop In E&TC

Department of Electronics and Telecommunication engineering organized a workshop on “Electronic simulation and Design”. Prof. Sandeep Ligade and Prof. Laxmiputra Maindargi guided the polytechnic final year students of the diploma colleges like A.G.P.P.I. and Solapur Education Society. In this workshop, students were guided about drawing the circuits and simulation. Students implemented the simulated circuit on the P.C.B. and the needful projects.

In this workshop students practiced the various circuits like microcontroller programs, Stepper motors, LED flashing etc. Head of Department (E&TC.) Prof. S.M. Shaikh introduced about the workshop. Students shown overwhelming response with max energy and enthusiasm and also expected similar workshops for maximum practical growth and development.
